

COASTAL USER GROUP MEETING – 13th June 2012

1. Foreshore Trust Items:-

- **White Rock Baths – Simon Hubbard (report circulated)**
SH spoke to his report, giving a progress report since his last presentation to the group in November 2011. Members of the group expressed a desire to visit the White Rock Baths following the recent works. **NS** agreed to organise a site visit to the White Rock Baths. **Action NS**

The group agreed to support the recommendations proposed in the report.

- **Foreshore Trust Car Parks – Richard Homewood (report circulated)**

RH spoke to his report.

RH confirmed that the proposed new parking spaces would take the place of the flowerbeds and grassed area to the north of Pelham Car Park. This option was the least harmful as the area is not regularly used by the residents.

Members of the group expressed concerns about Rock-a-Nore Car Park and asked that these works be prioritised. **RH** confirmed that arrangements were in place for improvement works at Rock-a-Nore Car Park.

The group agreed to support the recommendation to create 22 spaces including disabled parking provision when resurfacing Pelham Car Park.
