

# **A Road Map to Creating Health Equity and Prosperity in Hastings**

---

A Whole Systems Approach

# Background and Context

## Recommendation 1: Embrace Systems Thinking:

[Systems thinking](#) is a way of approaching problems and organising processes that is based on an idea of integration that is grounded in the belief that in a system, component parts act differently when isolated from other parts or the system environment. It allows us to understand the dynamics and properties of the complex systems in which we work, and what kinds of interventions can lead to better results.

Systems thinking is not about theory, it is 'a way of seeing and talking about reality that helps us better understand and work with systems to influence the quality of our lives.' Once we understand how systems work, and our own role in them, we function more proactively and effectively within them. Similarly, the more we understand systemic behaviour, the more we can anticipate that behaviour and work within the system for improvements. It is important to note that there should be a [focus on relationships between systems rather than their structures](#).

- **Action** – Embrace and acknowledge the complexity of the problems that we are dealing with. Looking at the **whole, multifaceted system** that impacts upon a complex problem, rather than just parts of it, enables us to see how we can make changes that will have the greatest impact on the lives of people we are working to improve. The Health Equity, Wellbeing and Prosperity Seminar to be held in Hastings in September 2022 will bring partners together to facilitate [whole systems mapping](#), launch the discussion paper which will inform the local strategy and delivery plan as well as;

## Creating Health Equity, Wellbeing and Prosperity in Hastings A Whole Systems Approach

# What was and is the purpose?

TO

- **Purpose for the workshop event** principally to get 'the system' together to **put into practice systems thinking** through whole systems mapping which focused on understanding/mapping the root causes (**causes of the causes**) for health inequalities in Hastings.
- The **focus** was therefore on capturing opportunities around the **wider determinants of health** and actions that can be delivered **uniformly** across the whole system so that it is pulling together in the same direction.
- There was a **focus on relationships between systems rather than their structures**

**Workshop Event - A Whole Systems Approach to Creating Health Equity, Wellbeing and Prosperity in Hastings**

East Sussex College, Hastings Station Plaza Campus, Station Approach, Hastings East  
Sussex TN34 1BA.

Wednesday the 14<sup>th</sup> of September 9.30am – 16.00pm

Programme	
9.30am	<b>Registration and Networking</b>
10.00 – 10.20am	<b>Welcome, Introduction and Housekeeping</b> - Paul Barnett – Chair of Hastings LSP - Opening Address - Lourdes Madigasekera-Elliott - Chair of the Hastings Health Inequalities Group - Terry Blair Stevens - Office of Health Improvement and Disparities
10.20 – 10.30	<b>Keynote Address</b> Professor Chris Whitty – Chief Medical Officer for England
10.30 – 10.45am	<b>Making Health Everybody's Business – A Whole Systems Approach</b> Darrell Gale – Director of Public Health for East Sussex
10.45 – 11.00am	<b>Tea and Coffee Break</b>
11-11.30PM	<b>Whole Systems Mapping - ALL</b> - Facilitator: Anna Card – Public Health Improvement Specialist - Breakout and Mapping Exercises x 2: What are the root causes of health inequalities in Hastings?
13.30 – 14.30	<b>Lunch</b>
14.30 – 14.50PM	<b>Feedback from Whole Systems Mapping</b> - Whole Systems Mapping – Feedback from discussion groups - Whole Systems Mapping and Delivery Plan - Where do we go from here?  Lourdes Madigasekera-Elliott and Terry Blair-Stevens
14.50-15.10pm	<b>The Universal Healthcare Proposition in Hastings</b> Dr Jonathan Serjeant – Associate Fellow at London Southbank University and Health Systems Innovation
15.10-15.30pm	<b>Opportunities for working better together in Hastings and the Integrated Care System</b> Stephen Lightfoot – Chair of NHS Sussex
15.30-15.45pm	<b>Next Steps</b> - Follow up workshop, analysis, and strategy development  Lourdes Madigasekera-Elliott
15.45 – 16.00pm	<b>Closing Address</b> Lourdes Madigasekera-Elliott - Chair of the Hastings Health Inequalities Group

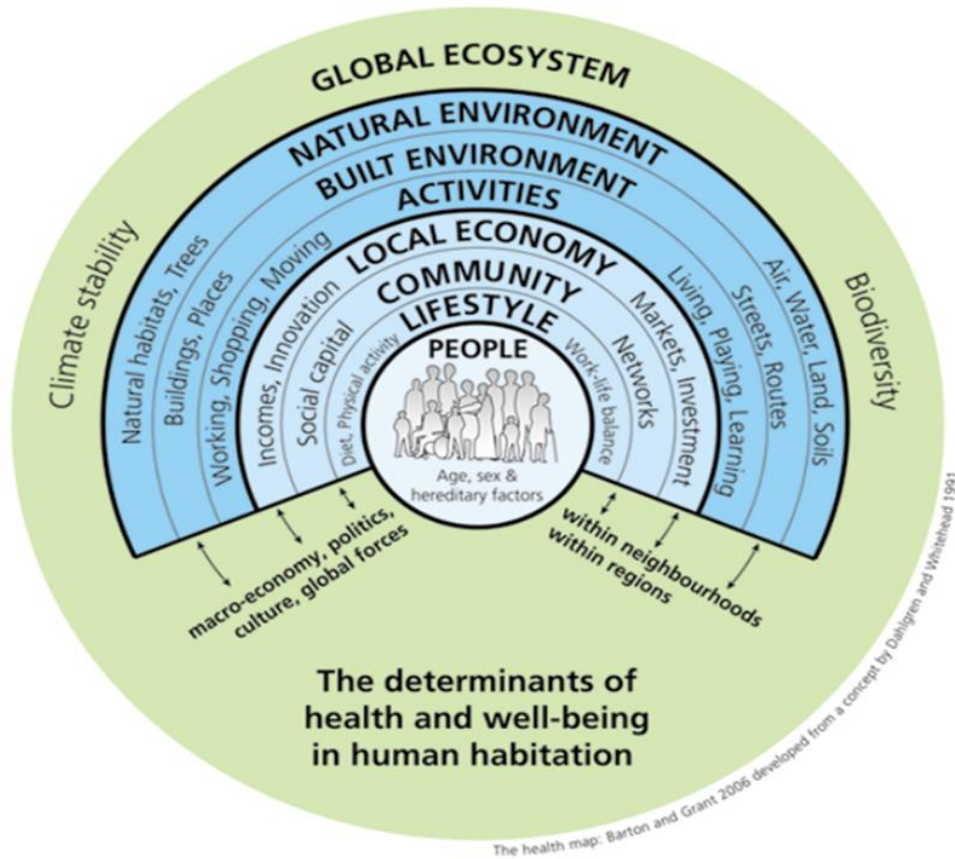

# The Event

1. We know that it is important and necessary to work as a 'whole system' to tackle health inequalities, but **how does this work in principle, practically** and how can we embed this further?
2. **What is the sum of our total parts?** What is 'the system' or systems we are working too?
3. How do we **reduce barriers** across the system that contradict our individual and collective efforts to achieving health equity, wellbeing, and prosperity?
4. What needs to be done to create health equity, wellness, and prosperity in Hastings and across all service areas, where are the **gaps and opportunities** to join up?
5. What are our **joint priorities** and how do we maximize **economies of scale**, efforts, resources, and capacity?
6. How do we **avoid duplication** and achieve maximum outcomes for our people and places? What are the **big wins** (i.e., housing, infrastructure, economy, education...)?
7. What impact are we having, what outcomes do we need to achieve and **what should our collective efforts equate to?**

# New Members

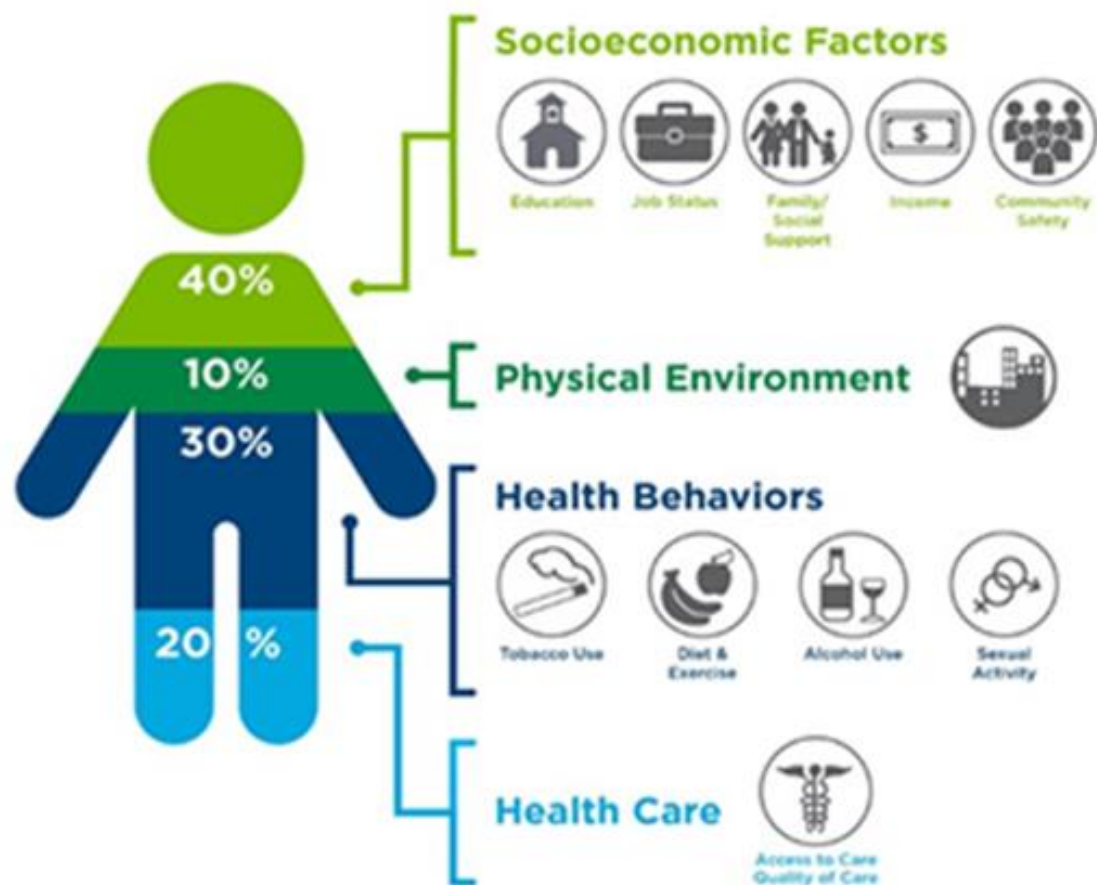

- Jayne Jeffrey – Employment Support Manager
- Brett Pearson – Locate Services Director
- Josh Broadway – East Sussex Fuel Poverty Coordinator
- Penny Beale – Penny Beale Memorial Fund Domestic Abuse Charity
- Jas Gray – GP Link Worker – Active Hastings
- Trudy Hampton – Chief Executive and Welfare Lead

# The Bigger Picture

- To be solution focused – let the evidence drive us
- Use **whole systems mapping** to capture **barriers and opportunities**
- Greater focus on areas that can deliver key outcomes for people and place outside of 'health'.
- The **objective**: to inform and identify **key actions for the system**
- This work will inform the development of the '**Creating Health Equity and Prosperity in Hastings**' Strategy and **Whole Systems Delivery Plan**.
- Opportunity to create a common language, capture opportunities, identify synergies and ripple

# Stages, Milestones and Outcomes

## Appendix B: Detailed action plan

### Physical activity

<b>Action area</b>	<b>Developing and supporting the sport and physical activity workforce</b>
<b>Event level actions</b>	Deliver training and networking to help support the development of the sport and physical activity workforce to enable them to provide an enhanced, tailored and supportive offer to inactive individuals.
<b>System structures level actions</b>	Sustain the active partnerships networks in Hastings and Rother and develop similar partnerships in other areas of East Sussex where they currently do not exist and where there is an identified need.
<b>System goals level action</b>	Increase the proportion of the professional workforce across East Sussex who have participated in professional development that will enhance their delivery of physical activity opportunities or the importance of physical activity.
<b>System beliefs level action</b>	The sport and physical activity workforce recognised the importance of professional development to support the ethos that 'physical activity is for all' allowing them to deliver a wide range of participation opportunities, allowing the population of East Sussex to find an option which best suits their personal preference and needs.

<b>Action area</b>	<b>Supporting inactive people to become more active</b>
<b>Event level actions</b>	Providers offer affordable physical activity opportunities to encourage and support participation from those least likely to be active (e.g. disabled, LTC's, older people, ethnically diverse people, women & girls) using local/national data and insight to target resources.
<b>System structures level actions</b>	Utilise the development of leisure centres and other key community facilities across East Sussex to ensure that new and existing facilities are welcoming and appropriate for inactive individuals.
<b>System goals level action</b>	Where appropriate, include measures to support inactive people to become more active within service level agreements /contracts.
<b>System beliefs level action</b>	Providers understand and embrace the benefits of delivering an offer which supports inactive individuals to become for active.

### Environment

<b>Action area</b>	<b>Embedding healthy weight activity within education settings</b>
<b>Event level actions</b>	Create and share resources through education settings which provide information on local physical activity opportunities and support parents/carers to be active with their children at home. Deliver cookery programmes within education settings (as stand-alone or as part of broader weight management programmes). Promote healthy weight messages as part of the curriculum.
<b>System structures level actions</b>	Support education settings to adopt a 'whole school' approach to healthy weight, to include the development of relevant policies, incorporating healthy eating and physical activity across the curriculum, provision of professional development opportunities, facilitating pupil voice, and effective partnerships with external agencies.
<b>System goals level action</b>	Education settings engage in established programmes /accreditation schemes which recognise their commitment to adopting and embedding a 'whole school' approach to healthy weight. As part of the East Sussex Healthy Schools Programme, 75% of schools achieve self-validated Healthy Schools status by July 2024. As part of the Healthy Active Little Ones (HALO) programme: 60% of early years settings achieve the HALO Award or HALO Excellence Award (or improvement in line with specified award criteria) by July 2024.
<b>System beliefs level action</b>	Supporting children and young people to develop a healthy and active lifestyle is fundamental to their future life chances (e.g. child development, attainment, future health and wellbeing outcomes, employment, etc).

<b>Action area</b>	<b>Creating a healthier weight environment</b>
<b>Event level actions</b>	Support partners to implement improvements to local areas which promote a 'healthier weight' environment.
<b>System structures level actions</b>	Work with the local planning authorities to embed a 'health in all policies' approach into their planning processes e.g. health impact assessments, design guides, supplementary planning documents, etc. which support a 'healthier weight' environment.
<b>System goals level action</b>	Develop and implement a 'creating healthy places' strategic framework for the county which supports a health into place approach.
<b>System beliefs level action</b>	All organisations with responsibility for planning in East Sussex recognise and prioritise getting 'health into place' in their local areas.

# Priority areas for action based on observation and metrics

---

1. **Environment**: built and natural including **housing** (quality, affordable and available), access to **healthy food**, climate change (planetary health), **thriving neighbourhoods** (healthy high streets, connectivity, accessibility, sustainability and 'complete')
2. **'Education and Economy'**: inclusive economy that supports quality **employment**, training skills, **education** and opportunities for all to prosper
3. **Mental Health and Wellbeing**: Clear relationship between mental health, employment and **substance misuse** as well as relationship between children and young people receiving **treatment**.

(Prevalence and Incidence, Risk Factors, Protective Factors, Services, Quality and Outcomes)

# Environment: Topics and Indicators

- [Housing](#): (indicators are fuel poverty, overcrowding, children in low income families, child poverty, affordability, homelessness)
- Natural Environment (indicators are [utilisation of outdoor space for exercise/health reasons](#) (ESWSHWP))

Indicator	Period	Hastings		Region England			England		Best
		Recent Trend	Count	Value	Value	Value	Worst	Range	
Fuel poverty (low income, high cost methodology)	2018	–	-	-	-	-	-	-	-
Overcrowded households	2011	–	1,540	3.7%	3.8%	4.8%	25.4%		1.2%
Children in low income families (all dependent children under 20)	2016	→	5,115	25.7%	12.7%	17.0%	32.5%		2.8%
Child Poverty, Income deprivation affecting children index (IDACI)	2019	–	4,524	26.5%	-	17.1%	32.7%		3.2%
Affordability of home ownership	2021	–	270,000	10.2	10.7	9.1	24.8		3.1
Households with overcrowding based on overall room occupancy levels	2011	–	3,842	9.3%	-	8.7%	34.9%		2.0%
Modelled estimates of the proportion of households in fuel poverty (%)	2020	–	5,756	12.9%	-	13.2%	22.4%		4.4%
Children in relative low income families (under 16s)	2020/21	→	3,878	22.6%	14.3%	18.5%	42.4%		3.3%
Children in absolute low income families (under 16s)	2020/21	→	3,130	18.2%	11.6%	15.1%	39.2%		2.7%
Homelessness - households in temporary accommodation	2020/21	–	271	6.3	2.7	4.0	48.6		0.0
Homelessness - households owed a duty under the Homelessness Reduction Act	2020/21	–	929	21.4	9.9	11.3	31.0		0.0
Homelessness - households owed a duty under the Homelessness Reduction Act (main applicant 16-24 yrs)	2020/21	–	234	5.4	2.2	2.6	8.7		0.0
Homelessness - households owed a duty under the Homelessness Reduction Act (main applicant 55+ yrs)	2020/21	–	97	4.9	2.2	2.3	10.7		0.3
Homelessness - households with dependent children owed a duty under the Homelessness Reduction Act	2020/21	–	275	27.0	11.8	11.6	32.2		1.8
Fuel poverty (low income, low energy efficiency methodology)	2020	–	5,756	12.9%	8.6%	13.2%	22.4%		4.4%

# Education and Economy

---

- Education: ([indicators include educational attainment \(5 or more GCSEs\) % of all children, Homelessness households with dependent children owed a duty under the homelessness reduction act](#))
- Economy: (indicators include [Economic inactivity rate, Socio economic gap in current smoker, % of population with physical or mental long term health condition in employment \(16-64\)](#))

# Mental Health: Topics and Indicators
