

RECYCLING BINS AT WEST ST LEONARDS

The following petition, supported by 235 signatures was received on 15 August 2011: -

The undersigned object to the HBC's proposed siting of recycling bins on West St. Leonards sea front at the junction of Grosvenor Gardens and Sea Road.

Reasons for the objection are as follows:

- Access to the recycling site will cause traffic disruption.
- The area is quickly becoming a fly tipping destination since the arrival of temporary recycling bins.
- Noise level would be unacceptable to local residents and visitors.
- Health and safety implications in an area popular with families with young children, dog walkers, and cyclists, and outdoor sports enthusiasts.
- HBC did not provide any reasonable consultation with residents for the proposed recycling facility.

Priority must be to enhance the area of West St Leonards and not to create an eyesore for much valued visitors and residents.
