

The following petition, supported by 10 valid signatures was received on 14 October 2011:

Re: Box junction at corner of King Edward Avenue and St. Helen's Road.

The boxed area at the junction of King Edward Avenue and St. Helen's Road has become increasingly dangerous to exit during peak traffic times as vehicles attempting to egress into the opposite lane have to crawl forward into the box so that a line of sight can be seen from oncoming traffic.

We the undersigned, request that Hastings Borough Council takes action to make this box area safer by either extending the size of the boxed area towards the St. Helen's Roundabout traffic lights or other options as appropriate.
