

The following petition regarding control of parking in Collinswood Drive, St. Leonards on Sea, supported by 14 signatures was received on 18 November 2011.

Against indiscriminate parking presumably by railway users.

Would it be possible to have resident parking or a daily 1 hour no parking period maybe between 11am and 12 noon for the first 150 meters from the beginning of Collinswood Drive, as I understand a similar scheme is working well in other parts of Hastings? This would also make it much safer for the children attending the school, especially those who are driven to and from, as this road becomes very dangerous at the start and end of the school day.
